Railroad Notes

The charge for excess baggage fare is to be made uniform all over the United States, Canada and Mexico. For over 150 pounds railroads will levy on a basis of one-sixth of first-class fare.

An increase in the excess baggage charge was made after passenger fares were reduced by various states from 3 to 2 cents a mile. This, however, brought a nonuniformity that was no small source of trouble.

The movement to make the charge the same the continent over met with favor. The Buffalo joint rate sheet will be the first to contain a table showing the new charge for excess. Rate clerks from the city will go to Buffalo tomorrow to work on preliminary to the joint rate sheet meeting there. The baggage table will be included. It will be inserted in the sheets of other cities as rapidly as possible.

Baggage men will be relieved of a great deal of worry. This part of their duties is no small item, especially on theatrical and commercial baggage.

Under the new plan if a person buys a ticket costing \$6 and his excess baggage is 100 pounds over 150 the excess will cost him \$1, one-sixth of his fare. Only first class fares are used as a basis.—Plain Dealer.

The Pennsylvania railroad officials are expecting a great increase of business within the near future, owing to the statement sent out a few
